SUMMARY

Computer Science Engineering student with knowledge of programming, data structures, operating systems, and web development. Experienced in developing web applications using HTML, CSS, JavaScript, and Node.js. Passionate about learning modern technologies and seeking an entry-level software development opportunity to apply technical and problem-solving skills.

EDUCATION

Hirasugar Institute of Technology, Nidasoshi
Bachelor of Engineering – Computer Science & Engineering
Expected Graduation: July 2027
Relevant Coursework:
Data Structures, Operating Systems, Database Systems, Computer Networks

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript, SQL
Web Technologies: HTML, CSS, Node.js, MongoDB
Tools: Git, GitHub, Linux, VS Code, Figma
Concepts: Concepts: Data Structures, Algorithms, Operating Systems, Software Development

PROJECTS

AI Prompt Generator Web Application
HTML, CSS, JavaScript, Node.js, MongoDB
- Built a web application that generates optimized prompts for AI systems.
- Designed responsive UI using HTML, CSS, and JavaScript.
- Implemented backend logic using Node.js and stored prompts in MongoDB.
- Improved prompt generation quality through testing and iteration.

Multi-Agent AI Collaboration System
JavaScript, TypeScript, CSS
- Built an AI collaboration system where multiple AI models discuss and refine responses.
- Implemented sequential AI discussion where each model builds on previous outputs.
- Integrated DALL-E image generation for AI-generated visuals.
- Developed conversation history storage to track and manage previous chats.

EXPERIENCE

Academic Development Experience
- Applied programming concepts through coursework and project development.
- Practiced debugging, testing, and problem-solving using multiple programming languages.
- Collaborated with peers during lab work and project assignments.

CERTIFICATIONS

UNIX & Linux OS Fundamentals – Training Completed
UI/UX Design Certification
Claude code in action
